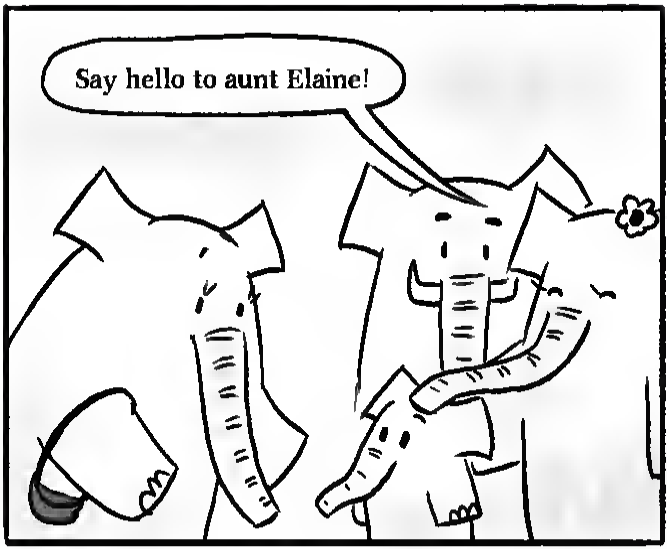
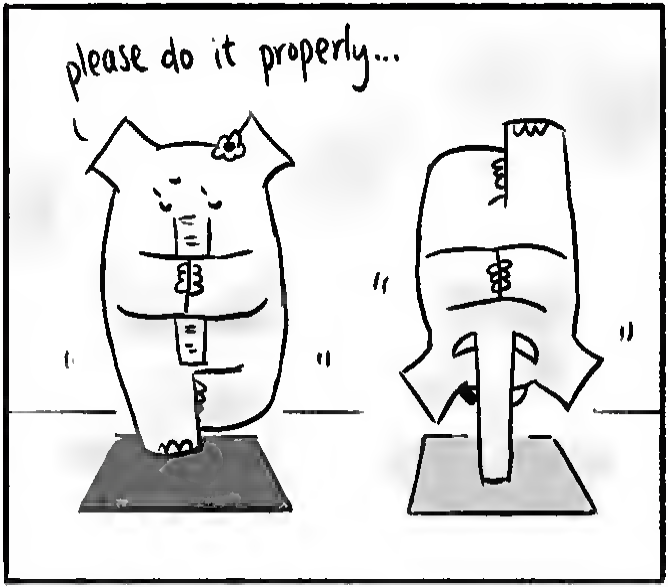
Dinner is ready!

please pass the food



Say hello to aunt Elaine!



please do it properly...

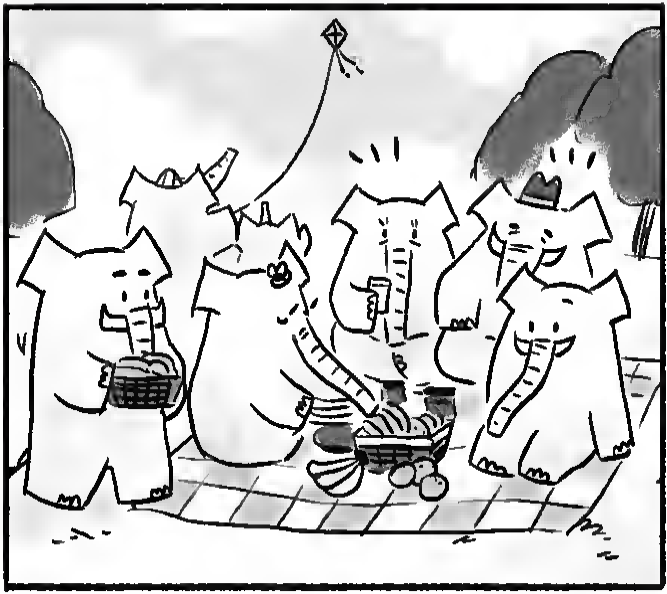
Apart from our family gatherings,
we all have our own hobbies.

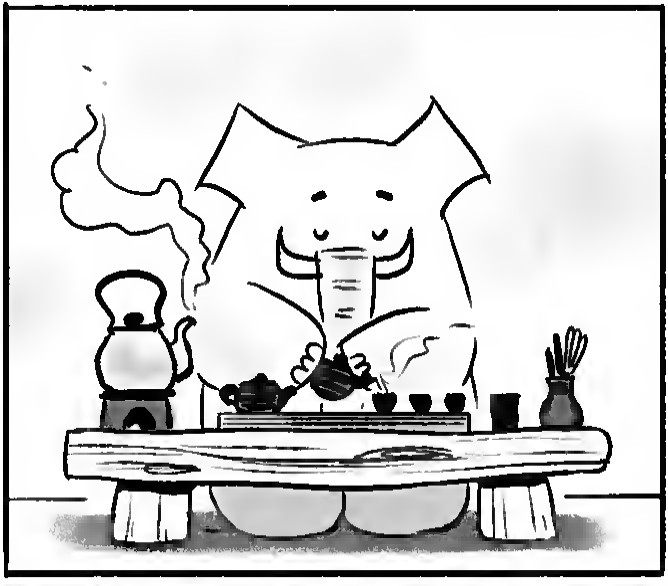
My mother manages a small garden.

My father enjoys writing calligraphy.

ASK
ME!
You can also write regular letters to me. I will keep them for later episodes.
Thank you, and have a nice day.

For entertainment, we enjoy more traditional activities such as picnic, hiking and board games.

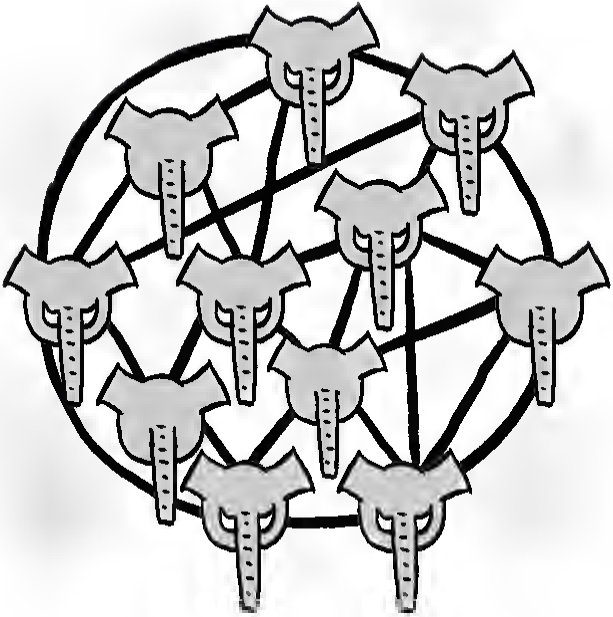




My younger brother is learning yoga from my sister.

We have so many aunts and uncles, I can't remember all their names.
I can't either. I think we will do better over time.

Thanks you for your letters, RSJ readers.
I notice some of you are really interested in particular characters, so we will ask them to answer your letters.
For the next editor's column, Cheetah-B will answer your letters.
You can write letters to her in this episode.



We value our family bonds a lot,
and we enjoy spending time with each other.

Every week, we always meet at my parents' home
and have dinner together.

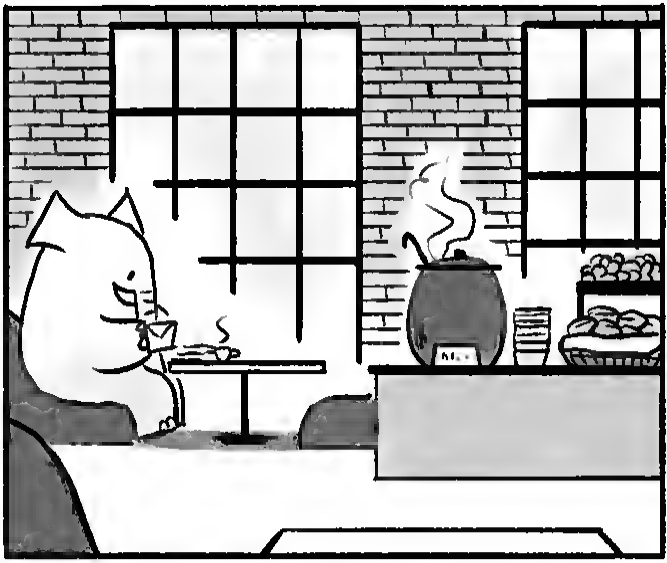
My older sister practices all kinds of yoga.

I do a little bit of everything, but I enjoy reading and replying letters the most.



Seems like there are some letters asking about me.

Dear Mr. Elephunk,I hope you are having a nice day at work, my question is How many brothers/sisters do you have? And if the other RSJ have brothers/sisters?

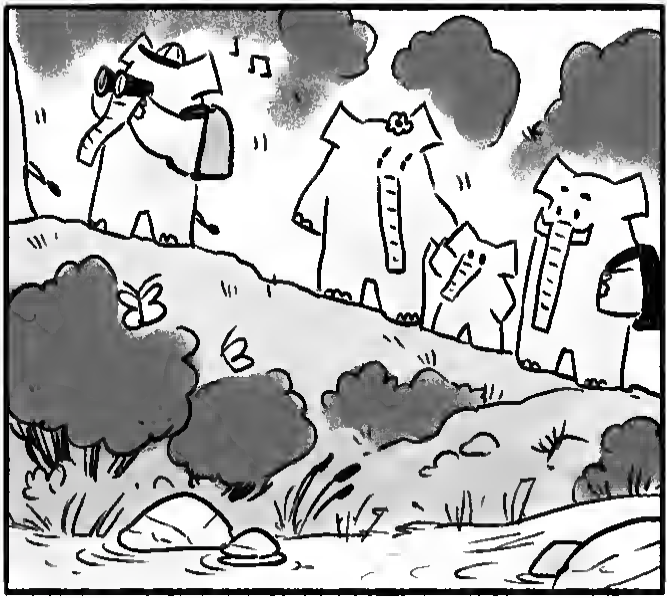
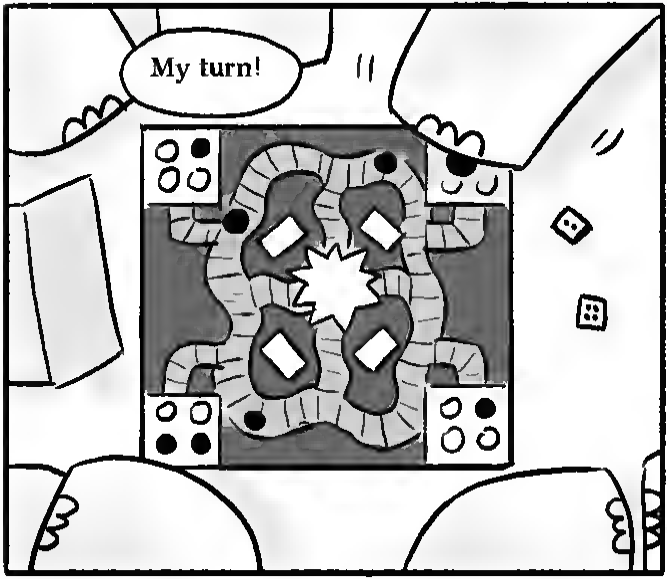
Xoxo . Mariana

We enjoy writing each other letters and postcards.

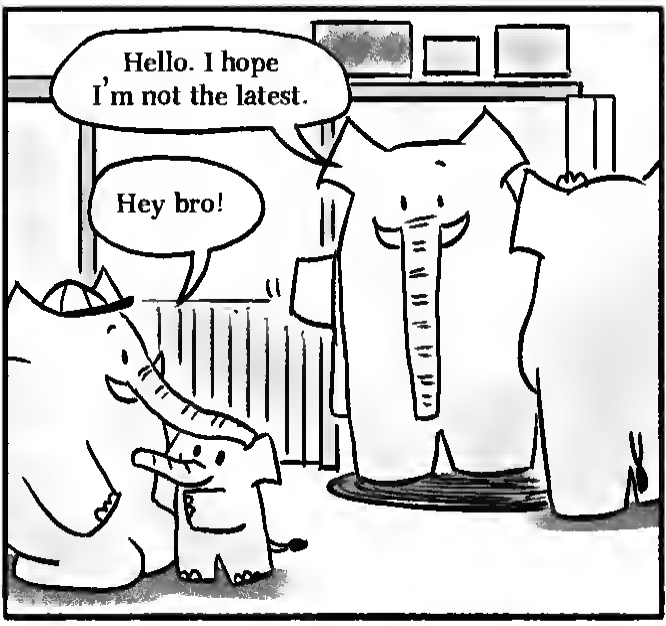
The anticipation to receive a letter and the unique hand writing make it more enjoyable than talking on the phone or sending messages.

I really like this postcard you wrote me when you were small. Your hand writing is so wobbly!
Mum, my hand writing is better now

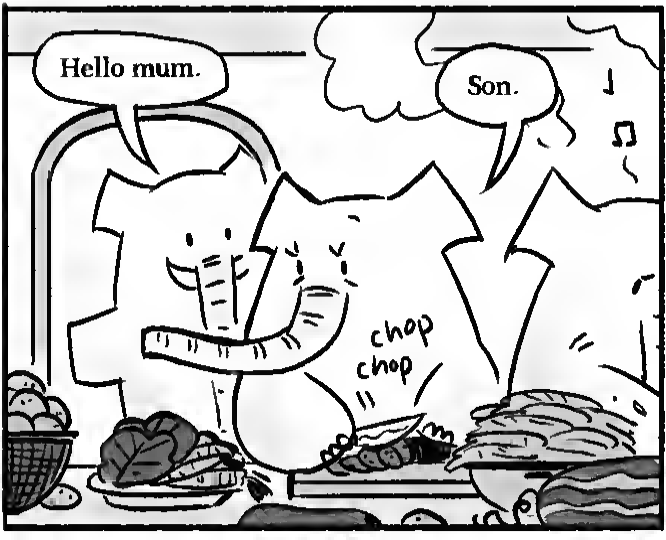




My turn!



Hello. I hope I'm not the latest.
Hey bro!



Hello mum.
Son.

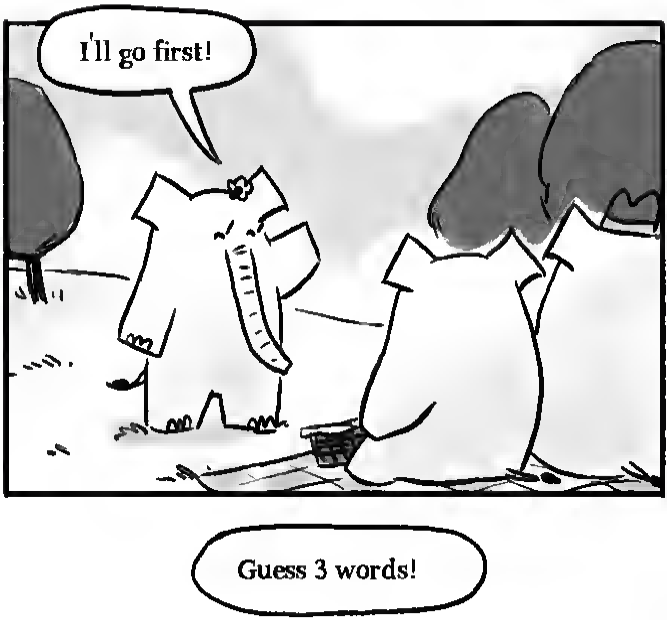
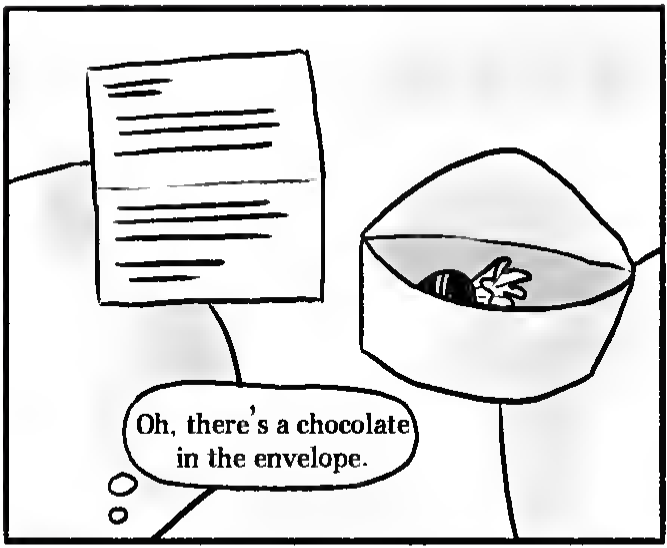
We also like to play word guessing.
It's a very fun group activity.





Oh, there's a chocolate in the envelope.

Tiffany, here's a chocolate for you from Mariana.

Then we would talk about our week.

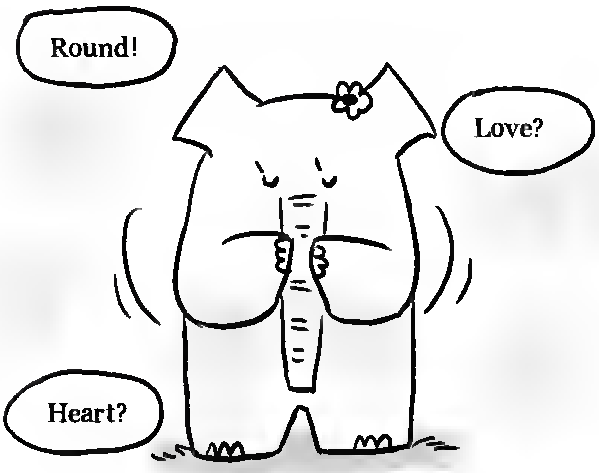
Me?



Round!
Love?
Heart?

We enjoy a simple peaceful life,
and use minimal technology.

We like to communicate directly by seeing each other.

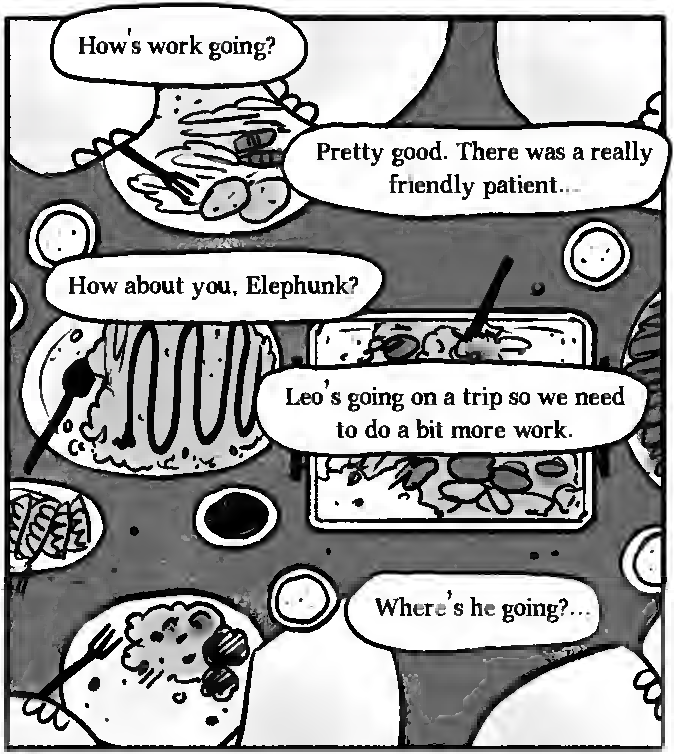
Mr. Elephunk, what's everybody's favourite leisure time activity?



How's work going?
Pretty good. There was a really friendly patient...
How about you, Elephunk?
Leo's going on a trip so we need to do a bit more work.
Where's he going?...

Apart from our close family,
we also have many relatives, which we would have large gatherings several times a year.

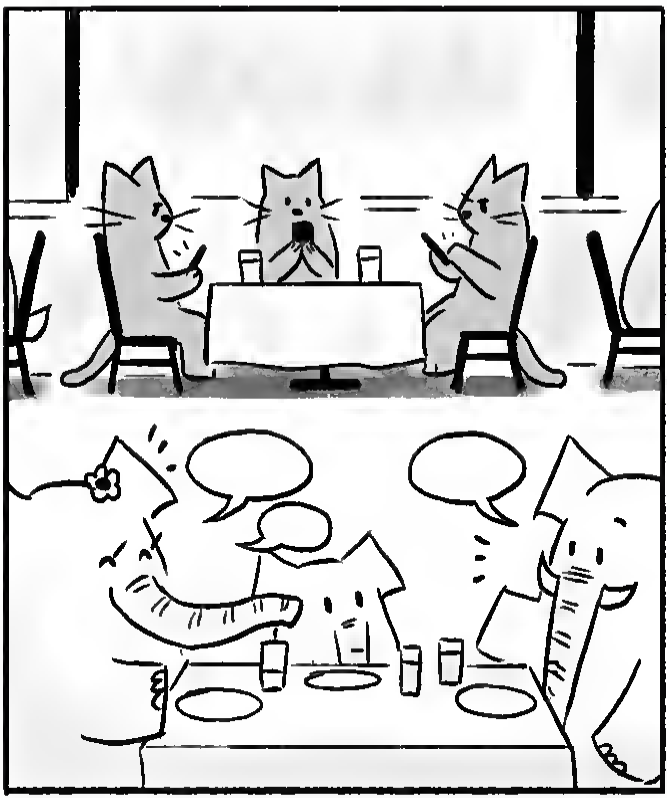
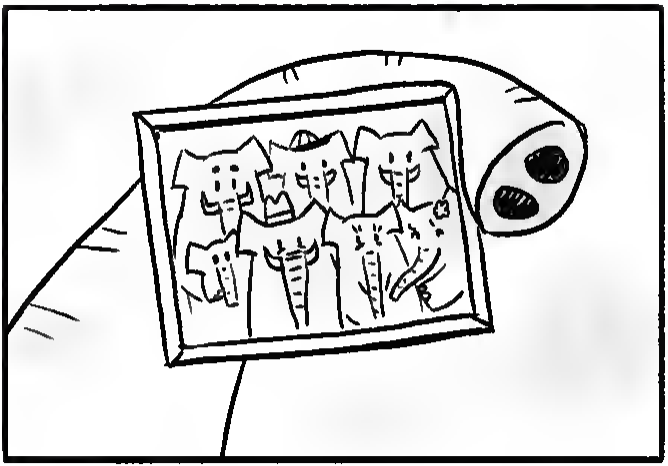
We get along quite well.

Elephants are a large traditional society with tight bonding, so we always treat each other nicely.

We don't use our phones when we are eating together.





There are 7 members in my family.

My parents, my older sister, her husband and their son, me, and my younger brother.
